

"Of all the forms of inequality, injustice in healthcare is the most shocking and inhumane."

Dr. Martin Luther King, Jr.

Our country is at a crossroads. There is talk of repealing the Affordable Care Act, gutting Medicare, and cutting back on Medicaid -- which will hurt the most vulnerable among us: immigrants, low-wage workers, people of color. Will we move backwards or go forward?

We believe that we need to protect, improve, and expand on the healthcare gains we have made in California and nationally. The ACA brought important changes, but we must finish the job. The majority of Americans support a healthcare system modeled on Medicare. We believe that guaranteed healthcare is a fundamental human right and that no one should be without the healthcare they need.

Supporting a sustainable, secure, and just healthcare system has never been more critical. We must finish the job and eliminate injustice in healthcare.
