

For Labor: Guaranteed Healthcare for ALL! S.B.562 The Healthy California Act

With those in Washington D.C. determined to sabotage our healthcare, we will be facing skyrocketing healthcare costs and cuts to essential public health services. We know that the results will be devastating to labor. Unions continue to see the increasing costs of healthcare being shifted to workers.

For labor, S.B. 562 means we can go on the offense, build a movement for healthcare justice, and:

- **FINALLY** get healthcare off the bargaining table—end the cost shifting
- Lock in comprehensive benefits; no deductibles or co-pays
- Money saved from lower healthcare costs can go to wages
- Preserve Taft-Hartley funds
- Retiree healthcare benefits covered; help funding pensions
- End plans that exclude family members
- Eliminate narrow networks and surprise medical bills
- Create a reliable, independent funding stream for public health services
- Replace premiums, deductibles, and co-pays with progressive, public financing

WHAT UNIONS SUPPORT S.B. 562?

(partial list):

American Federation of Musicians–California
AFSCME Council 57
Asian Pacific American Labor Alliance
